

Tariff structure certificate holders

The tariffs for certificate holders consist of an annual fee for each certificate and an annual membership fee or an annual payment per metric ton. These tariffs are applicable to both the '*NTA 8080 approved*' certificate and the '*NTA RED*' certificate.

Annual fee per certificate

This is the annual fee for the certificate holder, which is being collected by the certification body on behalf of the scheme manager.

Fee	EUR
Annual fee per certificate for Producer > 250 ha*, Processor, Trader, End-user	200
Annual fee per certificate for Producer < 250 ha*	50

* In case of group certification of 'small-holders', the group is regarded as a 'producer'.

Annual membership fee

Organizations that intend to certify according to NTA 8080, need to register at NEN. Members are exempt from payment per metric ton and registration costs and receive membership benefits.

Company turnover/year in million EUR*	Annual membership fee (EUR)
0 – 0,1	50
>0.1 – 0.5	100
>0.5 – 1	200
>1 – 10	400
>10 – 50	1,000
>50 – 100	2,000
>100 – 500	4,000
>500	5,000

*In case of group certification of 'small-holders', the group is regarded as organization (legal entity). It concerns the annual turnover of the legal entity (the company) that wishes to register.

Payment per metric ton

Companies can also choose for a payment of EUR 0.03 per metric ton (with a minimum total of EUR 100). The organization has the obligation to inform NEN about the volume of sustainable biomass. These details have to be submitted during the auditing process or once a year (within 12 months after the last audit).

The above prices do not include VAT and are valid until 31 December 2018.
